

BQCMB On the Land Program

The BQCMB On the Land Program provides funding to help support community programs that expose school-aged youth in Beverly and Qamanirjuaq caribou range communities to hunting, trapping and land skills, passed on from experienced hunters, trappers and elders.

Upon approval of the BQCMB, classroom projects including interviews with hunters, elders, and biologists may be combined with projects on the land.

The BQCMB provides a total of \$10,000 per fiscal year (April 1st – March 31st) to this program. The number and amount of grants awarded each year is determined by the number of applicants.

Each Applicant agrees to:

1. Organize a caribou hunt or similar on the land/cultural project that involves youth.
2. Ensure conservation examples and traditional teaching are provided and practiced.
3. Ensure safety practices are taught, demonstrated, and followed for matters such as winter survival, gun safety, boating safety, vehicle operation and basic first aid practices.
4. Provide high resolution photos of the Project for use by the Beverly and Qamanirjuaq Caribou Management Board
5. Provide a brief report describing activities and spending by September 15th or April 15th of the following year for presentation at the spring BQCMB meeting.

Applications are evaluated based on the following considerations:

1. *Alignment:* Does your project align with Caribou Management Plan priorities?
2. *Impact:* What are the potential positive impacts your project would have on communities, youth, elders, and caribou?
3. *Community Involvement:* How many community members, elders and youth will be involved in your project?
4. *Culturally Appropriate:* Does your project promote cultural practices within your community?
5. *Capacity Building:* Does your project have lasting impact on youth?
6. *Measurable Outcomes:* Does your project have clear, measurable goals that can be reported?
7. *Collaboration:* Are there partnerships involved in your project?
8. *Budget Justification:* Is your budget realistic and justified?
9. *Long-Term Viability:* Does your project have a goal or plan for sustainability beyond the funding period?

The BQCMB provides funds in two instalments:

1. Half (50%) upon signing of a Letter of Agreement.
2. Remainder after commitments outlined above are fulfilled.

If the Project is not conducted, the Applicant must return the funding to the Beverly and Qamanirjuaq Caribou Management Board or make alternate arrangements suitable to the Board.

The application form for the BQCMB's *On the Land Program* are provided on the following page. The application form is also available on the BQCMB website as an electronic fillable form.

******The application must be received by the deadline.******
